About me

I am a frontend web developer with an eye for detail. After years of playing basketball at the national level and graphic designing , I decided to develop web applications in college, where I had the chance to work with different technologies. Since then I had the opportunity to create and be part of multiple app developments. Currently I am ready for a new challenge and opportunity.

Technologies

JavaScript TypeScript Vue.js Nuxt.js

React Next.js HTML CSS SCSS

Tailwind CSS

Tools

Git GitHub Jira PHP Storm

NPM Adobe Photoshop Figma

Projects
These are some projects I developed:

◉ Order.me
github.com/dmnkhvl/Order

- SPA built with JavaScript framework React and Tailwind CSS.
- This app lets users create and manage products in a virtual bag with options to delete and see total cost, subtotal and discount.

◉ LaCompra
github.com/dmnkhvl/LaCompra

- Mobile first app built using JavaScript framework Vue.js and Ionic Framework. It allows users to manage shopping lists from an API.

◉ I helped develop

- Ticketing system - Vue.js + Laravel.
- Reservation managment app - Vue.js + Laravel
- User dashboard for reality agency app - Vue.js + Laravel.

Education

Systems engineering and informatics
Mendelova univerzita v Brne
2020–2022 (ended after 4th semester)

Work experience

Frontend web developer
Freelance oct2022–present

Working as a external Frontend web developer. Building apps with React.js and Vue.js / Next.js and Nuxt.js.

Basketball player
Slovak National Team jul2022–nov2022

I was captain of a national team under the age of 23. We were preparing for the World Cup and participated in many tournaments across Europe.

Junior web developer
Vermont mar2022–july2022

My first job in IT, where I got to know working in a team. We are in it they were responsible for creating and maintaining internal applications. In my role as a part-time worker, she was also helping on the backend Laravel + MySQL as well as on the frontend Vue.js + Bootstrap.

Founder, creator
Basketlab.sk aug2018–sep2021

I founded a portal for the basketball community. After its success, it united with the Slovak Basketball Association. Where I continued as a creator until September 2021.

Graphic designer
2015–2022

I have created countless online and print outputs.
